Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claims 1-15 are objected to because of the following informalities: in claim 1, line 7, "extended" should read --extending--; in claim 8, line 3, "firs" should read --first--, and in line 6, "extended" should read --extending--; in claim 11, line 2, "includes" should read --including--; in claim 14, line 3, "includes" should read --including--. Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 11 are indefinite in that the recitations "the pneumatic cylinder" and "a push plate" in both claims are confusing: "the pneumatic cylinder" in line 5 of claim 1 should read --the composite pneumatic cylinder--, and all instances of the recitation of "push plate" relating to the "first piston rod" in claim 1 should read --first push plate-- (claims 1 and 6).

Allowable Subject Matter

4. Claims 1-15 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

5. The following is a statement of reasons for the indication of allowable subject matter: the prior art does not teach a recycling system comprising a cutting device including a composite pneumatic cylinder mounted on base, a first piston rod movably mounted in the composite pneumatic cylinder, a push plate mounted on a distal end of the first piston rod to move therewith, a second piston rod movably mounted in the first piston rod and extending through the push plate, a connecting rod mounted on a distal end of the second piston rod to move therewith, and a disk cutter mounted on the connecting rod to move therewith, these in combination with the rest of the limitations in the claim.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
